# X-BRUSH

**X-BRUSH** is the strongest pickling device on the market that weights less the 10Kg. Thanks to the inverter technology **X-BRUSH** is **strong, safe and light**. Finally you can have your weld cleaner every time and everywhere you need it, without the burden of moving a 30kg device.

Thanks to its 100Amp **X-BRUSH** can easily clean any type of welding (TIG, MIG, ARC, ELECTRODE) on any sheet thickness. In order to be more productive you can also use two torches at the same time. This is very useful if you need to clean welds on a large product.

If you need to remove oxides and clean an entire SURFACE, you can equip **X-BRUSH** with 200 and 300mm tools and easily achieve the desired results.

## X-BRUSH is the device you were waiting for:

- Quickly PICKLE and PASSIVATE any kind of welding
- Remove OXIDES from any surface
- Black MARKING on any type of Stainless Steel
- 100% SAFETY for workers and environment thanks to inverter technology and ECO FRIENDLY chemicals
- Top PRODUCTIVITY with double torch
- Easy adjustment of power setting thanks to 0-led display
- Available for PAD and BRUSHES

## TECHNICAL DATA SHEET

|                             |               |
|-----------------------------|---------------|
| Model                       | X-BRUSH       |
| Voltage Input               | 220 V         |
| Frequency                   | 50/60 Hz      |
| Power unit                  | Inverter      |
| Power                       | 2500 W        |
| Voltage Output              | 0-30 V AC/DC  |
| Current Output              | 100 A         |
| Dimensions                  | 245x345x436mm |
| Weight                      | 8,5kg         |
| Output for Dip & Work torch | 2             |
| Output for Marking torch    | -             |
| Torch cable length          | 3 m           |
| Ground cable length         | 3 m           |
